Categories: 11-19 to 1-10 2014

No objections to our comments being EPA's if they accept them as theirs. I also will not have any additional comments. dt

Subject: DEQ Comments on the Gamma Cap Performance Report FMC OU

Kevin,

Please find attached DEQ's comments on the November 2013 Gamma Cap Performance Evaluation Report of the FMC OU.

Let me know if you have any questions. It should be fine if you submitted these comments to FMC as EPA's.

Doug let me know if you have any objections with EPA submitting our comments under their cover.
